# Sport Legends

2021

# Introduction

Each year the Western Cape Department of Cultural Affairs and Sport (DCAS) honours sportspeople in identified sports codes for their contribution to the promotion, growth, development and transformation of sport in their communities. They often performed these roles under difficult circumstances and with minimal resources. Often there was little institutional support and they had to make huge personal sacrifices.

These sportsmen and sportswomen became synonymous with sport in their communities, their province, and their country. They became our legends.

The first Annual Sport Legends Awards Ceremony was hosted by DCAS in 2005. This event marks the 15th time that sport legends in various sports codes are being honoured.

The nominees for the awards were proposed by members of the public and sports communities and selection was based on the following guidelines:

- People who made a significant contribution to sport.
- People who are regarded as icons in their communities.
- People who gracefully dedicated their lives to sport.
- People who played a role in shaping Sport and Recreation before 1992.
- A lifetime of service to the code in general.
- Nominees should be at least 55 years old.
- The nominee should preferably be retired, except in exceptional cases where the credentials of the candidate speak for themselves.

Today, 15 December 2021, the Western Cape Government acknowledges your contributions and bestows upon you, the 2021 inductees, the title of Sport Legend.

Individually and collectively, you have played a significant role in shaping sport in our province.

You worked tirelessly to develop the administrative and technical expertise required to ensure that sport is administered professionally and within the traditions of true sportsmanship.

You understand that sport is a powerful platform on which to build character, community, and social inclusion. You have inspired many a sportsperson and community with confidence and pride in their local sports heritage and have actively promoted the vision of a socially inclusive, creative, active, and connected Western Cape.

We salute you!

# Foreword

The Department of Cultural Affairs and Sport (DCAS) is proud to acknowledge and honour legends, heroes, heroines and icons who have made a significant contribution to the development, transformation and growth of sport in South Africa and, particularly, in the Western Cape.

This event is a highlight on the DCAS calendar and we are delighted to again be able to officially acknowledge our own living legends who have given up years of their lives to ensure that we build a better society through sport. Now more than ever, the roles of individuals who shaped sport in the province should be celebrated and we are therefore privileged to officially recognize our sporting legends and encourage our youth to follow in their footsteps. Their legacy has paved the way for future sporting stars and showcased in real terms the integral significance of sport in the communities we serve.

We wholeheartedly thank our sport legends in attendance and are mindful of those who cannot join us today, as we pay homage to their efforts to use sport and recreation as a tool for positive development and to heal a once divided society. From the various districts of the Western Cape, we commend you for the momentous roles you have played in shaping sport during difficult circumstances and trying times.

At a time when our world needs much healing, more social inclusion and celebrations of note, we pay tribute to the sacrifices of our sport legends today. We express our gratitude for their graceful dedication to their sport and for working tirelessly to develop the expertise required to ensure that sport is administered professionally and within the traditions of true sportspersonship. We thank them for leading the way with the understanding that sport is a powerful platform on which to build character, community and social inclusion. They have inspired many a sportsperson and community with confidence and pride in their local sport heritage and have actively promoted the vision of a socially inclusive, creative, active and connected Western Cape.

For this and so much more, we salute you!

# Basketball

## Cape Metropole

---

Zoran first became active in basketball in 1972 in Yugoslavia. He was a talented coach and player. In 1992, Zoran immigrated to South Africa and continued his work as a basketball player activist. Zoran soon integrated himself and many fellow emigrants into the foundation of Cape Town and South African basketball. Zoran mobilized his peers to join his basketball club in Cape Town. His team became one of the best teams in the city, district, province and in the country. He served on multiple district and provincial structures in the Cape District and Western Cape. His business-like management style and intense coaching skills were soon identified. Zoran was appointed as the national under 18 boys head coach and was recruited to serve as the chairperson of the South African Masters Basketball Association (SAMBA) and the Federation of International Masters Basketball Association (FIMBA). Zoran is a natural mentor. He conducted a coach's development programme for young black female coaches empowering them to continue their trade as coaches more effectively. Furthermore, Zoran served the basketball community in Cape Town, South Africa, and the African continent for 29 years. As one of the custodians of basketball in Cape Town, a lot of what we see today in Cape Town basketball is due to his commitment and work. As a white male foreigner he saw no barriers in entering Gugulethu, Manenberg, Heideveld, Langa, Khayelitsha, Kalksteen and other communities to promote basketball. Zoran remains the chairperson of FIMBA and recently relinquished his role as SAMBA chairperson. Cape Town basketball looks forward to Zoran's contributions in the future.

Cherzeley started his bodybuilding career in 1985 in Rocklands, Mitchells Plain, in one of Don Pedro's backrooms. His dream was to become a bodybuilder and look like the great Arnold Schwarzenegger. Cherzeley developed and introduced the following structures: youth at risk, males and females with disabilities, diversity, and disadvantaged communities. After his first competition in 1987 he gradually developed as an athlete and worked his way up to national level. He competed during the Apartheid era and it was difficult to get the recognition that he deserved because of the restrictions placed on the participation of non-white competitors. That did not stop him from pursuing his dream to compete at the World Championships. During the early 2000s he was involved as an athlete. He won titles from 2004-2008. He is a four-time Muscle Mania Masters Champion, a two-time WP flyweight champion, a four-time SANBA flyweight champion and a four-time SA Masters overall winner. Mathemba (affectionately known as Cappy) started his cricket career in 1960 in Langa. He represented WP in the Crown Mines Native Recruitment Corporation South African African Cricket Board [SAACB] in the following years and cities: Johannesburg - December 1965 to January 1966, Port Elizabeth - December 1967 to January 1968, Germiston and Thembisa - December 1969 to January 1970, Welkom - December 1970 to January 1971, Jabavu and Johannesburg - December 1974 to January 1975. People used to watch him in the nets facing the best young fast bowlers. They bowled bouncers and Cappy played them with ease. He advised players to watch the ball and he believed that people who got hurt playing bouncers were those who did not watch the ball. Mathemba was an all-rounder who opened the batting and bowled off spin. His advice came at critical times during cricket games. His greatest contribution to the community was ensuring that cricket remained a sport of choice for the generations to come. He sacrificed his time and material resources to ensure that cricket continued to be played in the townships. His commitment to the sport went beyond the leadership roles he held over the decades and included coaching and mentoring players. Langa Cricket Club is tangible proof of his immense contribution to cricket, as he spearheaded the building of Langa Cricket Club. He approached the City of Cape Town for funds, but they turned him down, so he later approached Mr Passmore, who leveraged his networks to help raise funds. The cricket club was built because Mathemba had a desire to see cricket flourish in the townships. He knocked on doors and did the work to make sure it happened. Mathemba became the chairman, later president and eventually life president of the Langa Cricket Club. He is currently retired.

# Weightlifting

## Cape Metropole

---

Dr Du Plooy started with the sport of Weightlifting way back in 1970 while still at primary school. He joined the local Physical Culture and Weightlifting Clubs (Kuils River Physical Culture and Weightlifting Club). During those years two sporting codes were practiced at the same time club and athletes could compete in both codes. Nowadays the codes have been separated for various reasons. Dr Du Plooy's achievements include being the former South African Weight and Middleweight Champion in 1979-1988. He has coached at club level since 1998 and even in the 80s and 90s at his former club. He served on the Executive Board of WP Weightlifting Association and was the manager of the Protea Weightlifting Federation in 1999, 2003, 2004, 2006, 2016 and 2017. Dr Du Plooy refereed at the Commonwealth Games in Delhi in 2010, refereed at the Olympic Games in Tokyo 2021(jury member) and is a member of the President's council of SASCOC since 2004 until present. This was just some of his great achievements.

In 1998 he started his own weightlifting club from humble beginnings in his garage, with a view of ploughing back into the sport what he got out of it as an athlete. He contributed to the reduction of crime and the other social evils by occupying the youth in a positive way. His thinking was that if you want to make a difference you must be prepared to dirty your hands, hence the establishment to the club. The club was established with a view on helping to keep children off the streets and to show them a better way than that of drug abuse. Their biggest achievement thus far is to have one of their members, Stephen Cupido, selected to represent South Africa at the Commonwealth Youth Games in Australia in November 2004. Stephen has completed and medaled at the Commonwealth Junior Championships in Melbourne, Australia. Internationally he serves as the 1st Vice-president of the Weightlifting Federation of Africa and Vice-president of the Commonwealth Weightlifting Federation. At Weightlifting competitions, he regularly serves as a member of the Jury.
