

## The Test Kitchen Restaurant

**The Test Kitchen**, Cape Town's most renowned restaurant, wholeheartedly adopts a farm-to-table philosophy and achieved global acclaim by being named one of the planet's best restaurants at the 2016 World's 50 Best Restaurant Awards.

In response to water scarcity concerns, The Test Kitchen took innovative measures by transforming into the "Drought Kitchen." This initiative was designed to exemplify water-wise restaurant practices. Fine linen and traditional china were substituted with disposable napkins and plates, significantly reducing the need for laundry and dishwashing. Furthermore, the menu was thoughtfully crafted to prioritize meals that demanded minimal water usage. These conscientious changes underscore the restaurant's commitment to sustainability while continuing to provide a top-tier dining experience.
