## **Budget decisions**

The global economic recovery remains weak and the interconnectedness of the South African and global economy has left the domestic economy vulnerable. The economy depends on investment in infrastructure and other forms of capital investment by government to sustain the minimal levels of growth presently seen. Consequently, the budget was prepared with the aim to sustain and expand investment in infrastructure.

From a strategic alignment perspective, allocations were guided by the Provincial Strategic Objectives (PSO), more specifically the intended outcomes for PSO 1: *Increasing opportunities for growth and jobs*, PSO 3: *Increasing access to safe and efficient transport*, and PSO 12: *Building the best-run regional government in the world*.

During the finalisation of the 2013/14 MTEF budget process the allocations within the vote were determined by the following:

Additional allocations were made in Programme 1: Administration, Programme 2: Public Works Infrastructure and Programme 3: Transport Infrastructure, to fill critical posts during 2013/14 based on the proposed new establishment of the department.

Allocations for the proposed new establishment of the department for 2014/15 and beyond have been provided for in Programme 1: Administration until the roll-out plan of the structure has been concluded.

The allocation for Programme 1: Administration was further augmented through internal shifts to strengthen governance support and sustain the Masakh'iSizwe bursary programme.

The allocation to Programme 2: Public Works Infrastructure for general building infrastructure was increased in order to preserve the asset base, enable work opportunities, enable refurbishment and provide efficient accommodation. The allocation for property rates, previously the Devolution of Property Rate Funds Grant, was also increased and an allocation was made for the development of centres for children with severe disabilities.

As a consequence of increased infrastructure allocations on Votes 5: Education and Vote 6: Health, for whom the department is the implementing agent, additional allocations were made on Programme 2: Public Works Infrastructure to build capacity to implement the infrastructure projects. Likewise, additional allocations were made to build capacity to deliver on the general building infrastructure projects.

The allocation to Programme 3: Transport Infrastructure was increased in order to preserve the road asset base and enable work opportunities.

The allocations for roads are earmarked by the Provincial Treasury at the following minimum levels: R1.595 billion in 2013/14, R1.744 billion in 2014/15 and R2.253 billion in 2015/16.

For the purposes of road safety and in support of the Safely Home Programme, internal shifts were made to enhance law enforcement through Average Speed Over Distance (ASOD), Automatic Number Plate Recognition systems and technology, as well as rectifying hazardous locations.

Funds were shifted to Programme 4: Transport Operations to strengthen the sustainability of the programme and provide funding for the George Mobility project.

Funds were allocated to Programme 5: Transport Regulation to provide for the administration of increased motor vehicle license fees.

The Provincial Roads Maintenance Grant and the Expanded Public Works Programme Integrated Grant for Provinces were adjusted upwards, whilst the Public Transport Operations Grant remained unchanged. The Provincial Roads Maintenance Grant supplements provincial road investment and supports preventative, routine and emergency maintenance on the provincial road networks. The Expanded Public Works Programme Integrated Grant for Provinces aims to expand job creation efforts in specific focus areas where labour intensive delivery methods can be maximised. The Public Transport Operations Grant aims to support intermodal efficiencies in public transport and affordability to users. The Devolution of Property Rate Funds Grant, originally allocated for the payment of municipal property rates of provincial buildings, has been subsumed into the Provincial Equitable Share from 2013/14.

Funds have been kept in reserve by the Provincial Treasury for allocation to the Vote in the Adjusted Estimates, depending on the implementation readiness of projects for roads infrastructure, provincial regeneration programme and acquisition of property.

Provision was made for general inflation and salary adjustments.

<sup>a</sup> Pre 2011/12: This conditional grant was previously known as the Infrastructure Grant to Provinces.

<sup>b</sup> 2013/14: National conditional grant: Devolution of Property Rate Funds Grant R392 046 000 (2013/14); R414 161 000 (2014/15) and R433 212 000 (2015/16) subsumed in equitable share as from 2013/14.

**Summary of receipts:**

Total receipts increased by R141 million or 3.1 per cent from R4.499 billion from the 2012/13 revised estimate to R4.639 billion in 2013/14.

**Treasury funding:**

National conditional grants comprise 28.5 per cent of total receipts and include the following: Provincial Roads Maintenance Grant, the Public Transport Operations Grant, and the Expanded Public Works Integrated Grant to Provinces. The Devolution of Property Rate Funds Grant has been subsumed into the Provincial Equitable Share as from the 2013/14 financial year. The total conditional grant allocation has decreased from R1.504 billion in 2012/13 main appropriation to R1.322 billion in 2013/14 or by 12.1 per cent.

Equitable share comprises 47 per cent of total receipts and increases by R536.698 million or 31.8 per cent from R1.690 billion in 2012/13 main appropriation to R2.227 billion in 2013/14. The equitable share portion includes Provincial Treasury ring-fenced funding for Programme 2: Public Works Infrastructure to the amount of R109.706 million and earmarked funding for Programme 3: Transport Infrastructure to the amount of R1.595 billion.

The Asset Finance Reserve funding (AFR) comprises 0.3 per cent of total receipts for 2013/14 and is used to fund infrastructure related expenditure. Funds have been kept in reserve by the Provincial Treasury for allocation to the Vote in the Adjustments Estimates, depending on the implementation readiness of projects for roads infrastructure, provincial regeneration programme and acquisition of property.

**Departmental receipts:****Tax receipts**

Motor vehicle licences revenue continues to dominate provincial own receipts, contributing 93.26 per cent of departmental receipts in 2013/14.

In the past there were concerns within the Western Cape Government (WCG) with the application of the MVL Fee structure being higher than other provinces. This encouraged practices of licensing outside of the Western Cape which resulted in the WCG losing MVLF revenue. MVL Fees have not been increased since 2006/07 resulting in the harmonisation of MVL Fees across provinces.

A proposal was made to increase motor vehicle licence fees by an average of 5.3 per cent during the 2013/14 financial year to bring the fees in line with the national average. Implementation of the proposed increased motor vehicle license fees is dependent on the conclusion of a public participation process.

**Sales of goods and services other than capital assets**

*Rental of office buildings:* Receipts adjustments are based on the number of buildings, the relevant lease amount and periodical increase of the lease amount as per agreement.

*Other licences and permits:* Receipts adjustments are based on expected demand and revised tariffs on abnormal loads fees, applications to stage sports and fun events, for filming shoots on public roads and demand for personalised and special motor vehicle licence numbers.

**Sale of capital assets**

In terms of an arrangement with the Provincial Treasury, proceeds from the sale of immovable assets are appropriated in the Annual Adjustments Estimates, or in the next year's annual budget based on actual collections. This is due to the fact that revenue attributed to the sale of immovable assets is usually subjected to a measure of uncertainty and relative slow realisation.

### **Expenditure trends analysis**

The provision for 2013/14 for the programme as a whole has increased by 2.11 per cent compared to the main appropriation for 2012/13 and has increased by 9.64 per cent compared to the revised estimates for 2012/13. Based on the main appropriation for 2012/13, the programme shows an increase of 48.41 per cent over the MTEF. The provision for payments of capital assets has decreased by 20.14 per cent compared to the main appropriation for 2012/13, while current payments has increased by 2.34 per cent and transfer payments increased by 4.70 per cent. Allocations for the proposed new establishment of the department for 2014/15 and beyond have been provided for on the programme until the roll-out of the structure has been concluded.

## **Expenditure trends analysis**

The provision for 2013/14 for the programme as a whole has decreased by 9.94 per cent compared to the main appropriation for 2012/13 and has increased by 1.09 per cent compared to the revised estimates for 2012/13. Based on the main appropriation for 2012/13, the programme shows an increase of 18.60 per cent over the MTEF. The provision for payments of capital assets has decreased by 60.65 per cent compared to the main appropriation for 2012/13, while current payments has increased by 12.85 per cent and transfer payments has increased by 22.71 per cent. Based on the main appropriation for 2012/13, the programme shows an increase of 14.83 per cent over the MTEF. The provision for payments of capital assets has decreased by 64.69 per cent compared to the main appropriation for 2012/13, while current payments have increased by 2.97 per cent.
