FOR YOU

Transport and
Public Works

Half-width construction may take place on these sections of road. A maximum of two closures of 2,5 kilometres each will be allowed and motorists can expect to have a waiting time of approximately 20 minutes per closure.

The safety and convenience of the travelling public are of utmost importance and every effort will be made to ensure that all temporary road signs, flagmen and speed controls are maintained and are effective, and that courtesy is extended to the public at all times. The public is requested to be patient, to adhere to speed limits, and obey all temporary road signs which have been put in place to ensure the safety of road users and construction workers.

The Department apologises for any disruptions and inconveniences caused by the construction works; and thanks you for your understanding and cooperation. The completion of the project will result in short-term direct investment in the local communities and economy – as well as the long-term benefit of safe and comfortable road infrastructure.
